iCT220

The rapid pace of technology means there has never been a better time to invest in new enabling solutions – supporting consumer payment behavior today while future-proofing your infrastructure to take advantage of tomorrow's opportunities. **Ingenico's new generation iCT220 terminal** does just this, combining the power of up to 500 million instructions per second, the latest **PCI PED 2.0** security, and the revenue potential of countless value added services in one unique terminal. Engineered to last, the compact design eliminates technical complexity to assure faultless operation in even the most demanding of banking and retail environments, while its ergonomic styling delivers the most comfortable and convenient user experience of any terminal in its class. In common with the latest generation of Ingenico terminals, the flexible, open platform at the heart of iCT220 terminal ensures compatibility with the entire Ingenico solutions range, with any time, anywhere payment delivered through a complete range of wired connectivity options.
